ERP Plans Abduction of U.S. Diplomat in Argentina

The leadership of the People's Revolutionary Army (ERP) has reportedly become concerned about the rising number of ERP members who have been arrested, and is planning to abduct an American diplomat to exchange for imprisoned ERP leaders. Although the ERP would like to kidnap the American Ambassador, ERP leaders feel that the security surrounding the ambassador makes such an operation unrealistic, and therefore they have assembled a list of all of the U.S. personnel at the American Embassy in order to select another target.

ERP leaders also would like this operation to coincide with the visit of Secretary of State Kissinger to Buenos Aires if he visits Argentina during 1975. If it appears that Kissinger will not visit Argentina this year, the ERP plans to carry out the abduction in the near future. Preliminary surveillance will be conducted on U.S. Embassy personnel before a decision on a target is reached.

On 1 May Argentine police found an ERP surveillance report on the U.S. Agricultural Attache which indicated there was advanced planning to abduct him. It is not known if this operation was part of the ERP's target selection process 3.5(c) 3.5(c) Because of this and other factors, such as telephone harassment and possible surveillance of other embassy personnel, this threat is being taken seriously by embassy officials. 3.5(c)
